Two-Day Hands-On Workshop • 13 CEs*
Saturday, November 17, 2018 & Sunday, November 18, 2018

Common Injuries Orthopedic Massage Assessment & Treatment

This workshop was designed by Dr. Ben Benjamin to help massage therapists and bodyworkers assess and treat specific injuries that challenge and frustrate most therapists.

The workshop provides training in anatomy palpation, injury assessment tests, treatment techniques, and client home exercises for the most typical injuries with associated with common complaints.

HOW YOU CAN BENEFIT

- Come away with a foundation of assessment tools, including orthopedic tests to identify or rule out specific soft tissue injuries.
- Learn to distinguish actual injuries from chronic muscle tension.
- Acquire a precise and consistent means of pain and injury evaluation.
- Improve your accuracy in identifying and treating injuries, resulting in more effective client treatment.

When you complete this two-day workshop,
you will have information and tools ready to use on your clients the next day.

Learn **ASSESSMENT TESTING** and **HANDS-ON TREATMENT**
for these pain complaints and their injured structures
